FAIR PARTNER INFORMATION:

Fast Pass wristbands will be available at special Fast Pass ticket boxes near the midway entrance.

The guest will receive a special vinyl wristband good for that day only that allows them access to any fast pass lines at designated rides. This is an additional wristband to be used in conjunction with tickets or a regular wristband special of the day. Guests must have both the Fast Pass wristband AND tickets or wristband of the day.

Price:

\$15.00 - No Refunds

Availability:

A limited number of 300-500 will be made available for sale on Fridays, Saturdays and Sundays.

Sales and Accounting:

We will be treating the Fast Pass as an upgrade to the day's promotion. It will be a separate plastic wristband that will be sold at one ticket box near Guest Relations in or a location closest to the entrance so the public sees it first after coming through the gate and it's close to the Mega Pass redemption spot to allow them to upgrade if they wish. The Fast Pass wristband will be a different color each day.

Ride Acceptance:

We will be limiting the roll out of the Fast Pass to 17 rides this year, but may expand it to include more rides in the future as space and logistics allow.

We will designate 25% of each ride's capacity for each cycle for Fast Pass riders. The remaining 75% of capacity will be left for regular patrons.

The Fast Pass strictly grants access to the Fast Lane, which is a separate entrance just for Fast Pass purchasers, and is only good for that one day.

The wearer will be required to have the correct number of tickets or that day's ride wristband if they wish to ride (so 2 wristbands on wristband days).

The Fast Pass only grants access for the wearer of the pass. Friends and family who do not have the pass cannot wait in line with someone who does.
